**Products:**

- Fabricating laminated glass manufactured by Guardian, Pilkington, ACH and PPG.
- As of 4/07 we will have 8 laminated facilities on line.
- Using .015, .030, .060, .090 PVB Interlayers, SentryGlas and Polycarbs
- Make ups that meet and exceed the Small Missile and Large Missile specifications

With 8 laminating facilities intertwined with 32 other Arch locations, Arch Aluminum and Glass is in the best position to supply North America with high quality laminated glass. Arch will has the ability to not only continue to produce its industry leading hurricane resistant laminated but some of the largest sheets of laminated available on the continent. (102 x 200) Arch also has the ability to produce decorative laminated at its Arch Deco Glass facility (SUMIGLASS) and laminated with ceramic frit lines and dots.

Arch also delivers its product on a nationwide fleet of trucks so handling is not an issue here. Arch Aluminum & Glass is an American owned, family company with over 2,300 employees. Arch is also a manufacturer of its own architectural metal line and is a true single source provider for any glazier needs.
