Product Line / Service Description

- Solar Control Film
- Decorative & Privacy Film
- Glass Fragment Retention Film
- Solar Safety Film
- Glass Enhancement Films

Established in 1969. Installation of solar control and safety films since 1969. Protecting people and property from flying glass due to vandalism, theft, accidents and terrorist acts. Daylight or anchored installation methods using mechanical or wet systems.

Solar control and safety films help to reduce solar energy by up to 79%, saving on costly utility bills. In addition, the films block up to 99% of the UV rays and also block excessive glare. Glass enhancement films give the appearance of expensive etched glass and come in different patterns and shades.

Products applicable for the following protective glazing applications:

- Safety
- Attack
- Blast Resistance
- Windstorm/Hurricane Resistance
- Seismic
