### **Product Line / Service Description**

- Exterior wall consultant
- Forensic Engineer

The Gordon H. Smith Corporation is a Professional Exterior Walls Consulting Firm specializing in the design of building enclosure systems including windows and curtainwalls. Thus we are intimately involved in the use of protective glazing products as they effect hurricane resistance, ballistic resistance and blast resistance. We provide advice and counsel to Owners and Architects in this area of design and Forensic Engineering services in the event of failure.

### **Products applicable for the following protective glazing applications:**

- Safety
- Attack
- Blast Resistance
- Bullet Resistance
- Windstorms/Hurricane Resistance
- Seismic
