Product Line / Service Description

- SilPruf SCS2000 - Silicone Adhesive for structural glazing and weatherproofing sealant
- UltraGlaze SSG4000 - Silicone Adhesive for structural glazing
- UltraGlaze SSG4000AC (accelerated cure) - Silicone Adhesive for structural glazing
- UltraGlaze SSG4400 (two component) - Silicone Adhesive for structural glazing
- Construction SCS1200 - Silicone Adhesive for structural glazing
- SilGlaze II SCS2800 - Silicone Glazing and weatherproofing sealant

Momentive Performance Materials, Inc. (formerly GE Sealants & Adhesives) is a manufacturer of products (silicones, acrylics, urethanes, adhesives) useful for providing strength, protection and resiliency to building components and construction assemblies. The performance characteristics of silicone materials especially (high strength + UV resistance) provide for truly high-performance products useful, valid and proven in protective glazing applications. Momentive Performance Materials, Inc., has been a global leader in the technology and manufacturing of silicone products since the 1940's and stands behind their use in appropriate applications.

Products applicable for the following protective glazing applications:

- Blast Resistance
- Windstorms/Hurricane Resistance
- Seismic
