Product Line / Service Description

- Makrolon® GP
- Makrolon® AR
- Makrolon® SL
- Makrolon® Hygard
- Makrolon® WG
- Makrolon® TG

Sheffield Plastics Inc. optically superior Makrolon® sheet products is clearly the right choice in any application. Whatever the application, you can design with greater strength, safety, and confidence in everything from machine guards, vacuum formed parts, formed sign faces, security glazing, engineered plat, and transportation. Available in a wide variety of sizes, gauges, configurations, and containment grade.

Makrolon® Hygard® laminated sheet polycarbonates provide maximum security and maximum visibility. Two, three and four-ply Makrolon® PC sheet laminates offer bullet-resistant containment up to UL 952 Level 3, with different sheets rated to provide specific levels of resistance to forced entry and ballistic protection.

Products applicable for the following protective glazing applications:

- Safety
- Blast Resistance
- Bullet Resistance
- Windstorms / Hurricane Resistance
