Product Line / Service Description

- Unitized Glazing Systems
- Impact-Resistant Glazing
- Bullet and Blast-Resistant Glazing

Trainor Glass Company designs, engineers, builds, and installs interior and exterior structural glass for a wide range of architectural applications from its state-of-the-art manufacturing facilities across the United States. Ongoing and completed projects include office towers, health facilities, government facilities, libraries, museums, shopping developments, and health clubs, as well as tenant build-outs and detailed custom interiors. These diverse and complex projects allow Trainor glass to employ its wide spectrum of glass applications: unitized systems, curtain wall, glass partitions, mirrors, specialty glass, all-glass doors, butted glass walls, privacy glass, and more. Trainor Glass has been a frontrunner in the design and development of impact resistant glazing systems since the evolution of stringent building codes in the early 1990's.

Products applicable for the following protective glazing applications:

- Blast Resistance
- Bullet Resistance
- Windstorm
- Hurricane Resistance
