- Blast and Impact Resistant Structural Silicone Sealants
Proglaze II, Proglaze SG, Spectrem 2
- Blast and Impact Resistant Glazing Products
Gaskets – Structural Spacers
Tapes – Perimeter Sealants

For over 60 years, Tremco has been a market leader in the design, development and manufacturing of glazing products used in commercial curtainwall and window applications. Now Tremco brings value to the Blast and Impact Resistant glazing market. In fact, we have successfully designed, tested and passed the most stringent industry requirements with major curtainwall and window manufacturers in North America.

We are experts in the development and manufacture of Silicones, Polyurethanes, Acrylics, Latexes, Thermoplastics, and Butyls. As a result, we are able to provide the right product, always.

Tremco is the only Single Source Supplier offering a complete line of glazing sealants, tapes and gaskets. Tremco also provides compatible perimeter caulking and weatherproofing materials to compliment your window or wall system.
