

PGC International 2010 Educational Webinar Series Call for Presentations

Following the success of PGC International's inaugural year hosting its educational webinar series of presentations, the organization intends to expand upon its offerings and invites you to submit an application for this Call for Presentations, to be considered for one of twelve webinar presentation openings.

Webinar presentations will be hosted the last Friday of each month, unless otherwise noted or to accommodate schedule conflicts. The presentations should be generic in nature and run roughly 45 minutes to 1 hour in length. It is important that we are able to follow-up with the webinar attendees, soliciting feedback on your presentation and providing them PDF handouts of your presentation.

In addition, we request to record your presentation for later posting on the PGC International website. The rebroadcasts will be available to non-members to download for a fee of \$4.95 per viewing. All proceeds received from the rebroadcasts will be split 50/50 with the presenting company. Rebroadcast downloads will remain free to members on the member's only site.

Presentations of varied subjects and technicality are encouraged. Topics covering new or emerging technologies, doing business with the government, insurance related to protective glazing issues, and case studies are just some matters of interest.

Interested individuals/organizations may use the attached form to provide a presentation scope and related information. Topic submittals from non-PGC International members are welcome but must be sponsored by a member.

Applications must be submitted to PGC International Headquarters by December 1, 2009.

The individuals/companies selected will be advised of their selection no later than January 4, 2010. Presentations will be assigned as near as possible to the requested months listed on the form, but your flexibility is also appreciated.

If you have questions concerning this opportunity, please contact PGC International at (785) 271-0208.

Sincerely,

The PGC International Team
